SUMMARY

Junior Data Scientist skilled in SQL, Python, automation workflows, and cloud-based analytics. Strong foundation in data cleaning, exploratory data analysis, dashboarding, and scalable data processing. Experienced in building structured extraction pipelines and analytical backend components. Passionate about AWS analytics tools, BI dashboards, and driving data-backed decision-making.

WORK EXPERIENCE

HCLTech — Software Engineer | Noida, India (March 2024 – Present)

Developed data processing and backend automation workflows using Python, SQL, and regex to extract, clean, and transform structured/unstructured datasets. Built high-accuracy parsing pipelines reducing manual effort. Enhanced internal tools and dashboards using JavaScript and React. Collaborated with US cross-functional teams for reliable production delivery.

Rhythmflows Solutions — Trainee Engineer (Backend & Full Stack) | Pune, India (Oct 2023 – Feb 2024)

Developed backend APIs using Node.js and Express, optimized database queries, and improved overall API performance. Enhanced UI components using React and supported agile-based feature delivery.

PROJECTS

TechAssist AI — Data Extraction & Automation

Developed structured data extraction workflows using Python, regex, and SQL-like transformation logic. Built ETL-style validation steps ensuring consistency and accuracy. Integrated LLM-driven components to enhance automated decision support.

Google Store Clone — SQL Analytics & Backend Engineering

Designed optimized PostgreSQL schemas enabling efficient data retrieval. Wrote advanced analytical queries using joins, indexing, and normalization principles. Built and tested product APIs and backend modules supporting scalable e-commerce workflows.

SKILLS

Data: SQL (PostgreSQL, MySQL), Joins, Window Functions, CTEs, EDA, Data Cleaning

Tools: Amazon QuickSight (Beginner), Amazon Redshift (Beginner), PowerBI, Excel, Git

Programming: Python, JavaScript

Frameworks: Pandas, NumPy, Node.js, Express.js, Django, React.js

Other: Regex pipelines, JSON parsing, API integrations, Agile collaboration

EDUCATION

MCA — 8.63 CGPA | Savitribai Phule Pune University (2022–2024)

BCA — 9.57 CGPA | Solapur University (2019–2022)

CERTIFICATIONS

Data Science with Anaconda — Beginner Certification

NLP with Python — Udemy

JavaScript & React Fundamentals — Udemy

Introduction to Artificial Intelligence — LinkedIn Learning

Career Skills for Software Development — LinkedIn Learning
