PROFILE SUMMARY

Dedicated Analyst with hands-on experience at HCLTech, working on frontend and backend development in agile teams. Strong foundation in MERN stack concepts including React.js, JavaScript, REST APIs, and MongoDB, with practical experience in building scalable web applications. Passionate about writing clean code, learning quickly, and contributing to real-world products in a startup environment.

WORK EXPERIENCE

HCLTech — Analyst

March 2024 – Present | Noida, India

- Worked extensively on React.js to build and maintain reusable UI components.
- Integrated frontend components with RESTful APIs for seamless data flow.
- Assisted in backend logic implementation and database query optimization.
- Collaborated with cross-functional teams in Agile sprint cycles using Git-based workflows.
- Focused on code quality, debugging, and performance improvements.

Rhythmflows Solutions — Trainee Software Engineer (Intern)

Oct 2023 – Feb 2024 | Pune, India

- Developed RESTful APIs and integrated them with dynamic React.js interfaces.
- Optimized SQL queries and backend data flows, reducing retrieval time by 50%.
- Contributed to application testing, debugging, and performance tuning.
- Followed Git-based version control and agile development practices.

PROJECTS

Google Store Clone — React, Django, PostgreSQL

Developed a responsive e-commerce application with product browsing, filtering, and secure order management.

Metro Ticket Reservation System — Flask, MongoDB

Built a metro ticket booking system with NLP-based route prediction, reducing booking time by 30%.

EDUCATION

Master of Computer Applications — Savitribai Phule Pune University (2022–2024) — 8.63 CGPA

Bachelor of Computer Applications — Solapur University (2019–2022) — 9.57 CGPA

SKILLS

React.js, JavaScript, Node.js (Basic), Express.js (Basic), MongoDB, SQL, PostgreSQL, HTML, CSS, Git, REST APIs, Agile
