## Technical Skills

**Languages and DataBases:** Python, SQL, Javascript, Postgres, MongoDB, & C/C++

**Framework and Library:** React JS, Angular JS, Django, Flask

**Other Skills:** Git, Linux, Windows & HTML, CSS

## Experience

### HCL Technologies

March 2024 – Present

Graduate Trainee

Noida, India

- Strategized and analyzed **market trends for over 50 diverse brands**, successfully leading to a substantial **increase in GMV by 35 CR** through targeted initiatives and data insights.
- Conducted in-depth inventory analysis, utilizing advanced Excel techniques, which resulted in a **notable 12% revenue growth** by optimizing stock levels and minimizing overstock.
- Effectively **reduced product return rates by 23%** for key brands like “Abc” and “def”, by identifying and addressing major factors contributing to returns through detailed data analysis.

### Rhythmflows Solutions (Intern)

July 2022 – December 2022

Trainee software Engineer

Pune, India

- Enhanced the effectiveness and reach of various political and product ad campaigns, leveraging SQL and Excel for data analysis, directly leading to a **significant 9% boost in campaign ROI and revenue growth**.
- Streamlined and optimized SQL query operations, successfully **reducing processing times by over 50%**, thus enhancing overall database efficiency and response times for business-critical operations.
- Played a pivotal role in managing and fine-tuning advertising campaigns across several major platforms (Appnexus, Trader Desk, Google DBM), directly contributing to **increased campaign ROI and efficiency**.

## Personal Projects/Awards & Achievements

**Maple Hardware: Interactive Tableau Dashboard** | *Tableau, Data Modelling and Cleaning*  
2022

April 2022 - May

- Developed an interactive Tableau dashboard for Brunox Electronics, enhancing strategic decision-making with dynamic visualizations that **reduced data trend identification time by 40% and improved decision accuracy by 30%**.
- Streamlined data modeling and cleaning processes, **reducing preparation time by 25% and boosting data accuracy by 15%**.
