Technical Skills

Languages and DataBases: Python, SQL, Javascript, Postgres, MongoDB, & C/C++

Framework and Library: React JS, Angular JS, Django, Flask

Other Skills: Git, Linux, Windows & HTML, CSS

Experience

HCL Technologies

March 2024 – Present

Graduate Trainee

Noida, India

- Resolved technical issues related to system access, software configurations, and performance troubleshooting for diverse client systems, **ensuring 99% SLA compliance**.
- Coordinated with cross-functional teams to identify root causes of complex system errors, streamlining processes for reduced downtime and faster issue resolution.
- Gained hands-on exposure to ITIL practices, Service Now workflows, and enterprise-level technical troubleshooting. Enhancing **resolution efficiency by 20%**.

Rhythmflows Solutions (Intern)

Oct 2023 – Feb 2024

Trainee software Engineer

Pune, India

- Optimized SQL queries, reducing **data retrieval time by 50%** and improving database efficiency.
- Collaborated with the UI/UX team to create responsive web interfaces using **React.js** and **Angular.js**, ensuring a seamless user experience across devices.
- Developed RESTful APIs using **Django** and **Flask**, enabling seamless data integration between the frontend and backend systems.

Personal Projects

Metro Ticket Reservation Web Application:

HTML & CSS, Flask, MongoDB, NLP

Feb 2023 - May 2023

- Developed a metro ticket reservation system using **HTML**, **CSS**, **Flask**, and **MongoDB**, enabling efficient booking and management with secure user authentication.
- Integrated **NLP** for smart search and predictive route suggestions, reducing booking time by 30%.

Google Store Clone:

React JS, Postgres, Django, Javascript

Dec 2024 - Present

- Building a responsive Google Store clone using **React.js** for the frontend and **Django** with **Postgres** for the backend, enabling seamless product browsing, filtering, and secure order management.
