WORK EXPERIENCE

HCLTech

Frontend Engineer | Noida, India (March 2024 – Present)

- Built responsive UI components using React.js, JavaScript (ES6+), and modern CSS libraries.
- Collaborated with designers and PMs to ship clean, user-centric features across web platforms.
- Optimized rendering performance, reduced load times, and enhanced mobile responsiveness.
- Integrated REST APIs, handled dynamic data flows, and improved UI state management.
- Debugged complex UI issues and ensured cross-browser and cross-device compatibility.
- Maintained high code quality through Git workflows, modular design, and iterative improvements.

Rhythmflows Solutions

Trainee Engineer (Frontend & Backend) | Pune, India (Oct 2023 – Feb 2024)

- Developed React.js components with reusable patterns and responsive layouts.
- Worked on frontend-backend integrations with Node.js and Express.js.
- Improved UI UX consistency and optimized API-driven rendering.
- Contributed to Agile sprints and delivered production-ready features.

PROJECTS

TechAssist AI | React.js, MERN

- Built interactive UI panels, dashboards, and API-driven components.

Google Store Clone | React.js, Django

- Developed dynamic product pages, mobile-friendly layouts, and authentication UI.

Metro Reservation System | React.js, MERN

- Designed and implemented booking UI, real-time validations, and optimized rendering.

SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript (basics), HTML5, CSS3, Tailwind, Bootstrap

State Management: React Hooks, Context API

Version Control: Git, GitHub

Performance: UI optimization, code splitting, lazy loading

Tools: VS Code, Postman, Linux

Backend Basics: Node.js, Express.js, REST APIs

EDUCATION

MCA — 8.63 CGPA | Savitribai Phule Pune University (2022–2024)

BCA — 9.57 CGPA | Solapur University (2019–2022)

CERTIFICATIONS

- JavaScript & React Fundamentals – Udemy
- Git & Version Control – LinkedIn Learning
- Introduction to Web Development – Udemy
