Mayur Gatti

Analyst @ HCLTech | Data Analysis | Reporting & Insights
Noida, Uttar Pradesh, India

Summary

As a Graduate Trainee at HCLTech since March 2024, I focus on building data analysis tools and automating reporting processes. By collaborating with global teams, I contribute to optimizing data integration and reporting workflows. My efforts include developing automated dashboards using Python, SQL, and Power BI to support internal stakeholders.

Currently pursuing a Master of Computer Applications at Savitribai Phule Pune University, I bring a strong foundation in computer applications and a commitment to continuous learning. My prior experience includes implementing ETL pipelines and optimizing SQL queries as a Software Engineering Trainee at RhythmFlows Solutions.

Experience

HCLTech
2 years

Analyst
September 2025 - Present (6 months)
Solapur, Maharashtra, India

Built and maintained automated reports and dashboards for operational insights.
Analyzed structured data using SQL and Excel to identify trends and improvement areas.
Automated recurring data workflows, reducing manual reporting effort.
Ensured data accuracy, validation, and consistency across reports.

Graduate Trainee
March 2024 - August 2025 (1 year 6 months)
Noida, Uttar Pradesh, India

Supported data collection, cleaning, and transformation for reporting use cases.

Assisted in creating automated reports and basic dashboards.
Performed data-driven root cause analysis for system and process issues.
Collaborated with teams to understand data workflows and pipelines.

RhythmFlows Solutions Pvt. Ltd.

Software Engineer Intern

September 2023 - February 2024 (6 months)

Pune, Maharashtra, India

I had the opportunity to work at RhythmFlows Solutions Pvt. Ltd., where I focused on developing robust data solutions.

- Designed and implemented ETL pipelines to facilitate data migration and transformation.
- Optimized SQL queries, resulting in a 50% increase in data retrieval performance.
- Developed RESTful APIs for secure internal data exchange and enhanced reporting through automation.
